Kelly

In order to keep the accounting separate between the three sites, this year's awards will need to be prepared as three separate grant agreements. Thus, we will need to have a separate application package for each. It is up to you whether you submit them all at the same time or at varying times.

If you are seeking the funding to cover the time between submittal and EPA issuance, please include that request with the application. In order to have pre-award costs covered, we need to get HQ approval but the process is initiated by your request.

If you submit the three applications separately, please send the Simplot and Off-Plant OU applications to me and the FMC OU to Kevin. If you send them together you can send to my attention and I will provide the FMC part to Kevin.

I look forward to receipt of your paperwork.

Jannine

Jannine we have been working on the comments and have them completed on the documents sent earlier this week. Are we supposed to submit them as individual packets or compile them into one with separate work plans as done?

Let me know so we can get this into you asap.

Thanks

Kelly
